Performance Instructions: This is mostly an open instrumentation piece. The lower pitched instruments read the line marked with a bass clef, and higher pitched instruments read the line marked with a treble clef. Pitch notation is relative, not absolute: all pitches are notated on a one line staff where the line represents the middle register of the instrument. Notes below the line are played in the instrument's lower register, and vice versa. The pitches should also sound as dissonant with each other as possible; a sense of tonality should be avoided as much as possible.

In addition to the sounds notated, there is also a pre-recorded audio element: throughout the whole piece, a voice counting "eins, zwei, drei, vier" (German for 1, 2, 3, 4) in quarter notes is to be looped. The voice is to be so distorted so as to almost sound like the voice is saying "I, might, die, here" instead.
